Reach the World **MISSION** POSSIBLE

Up to now, we've been heavily investing our time in the Mbenjere Village. By focusing our efforts solely around evangelism and a midweek Bible study, it's given us time to build relationships. Our goal has always been to start a church in this village but we wanted it to come about naturally.

On March 24th the headman and his wife accepted Christ and I began a series of Bible lessons that were developed just for this ministry. That day also marked the beginning for the men's discipleship. Twenty two men attended that meeting and since then, twelve have accepted Christ. Throughout April and May, this initiative has grown into four discipleship groups for both men and women. By mid 2018, my prayer is to be in a position where we can start to send out teams from Mbenjere to evangelize and disciple other un-reached villages north of our location.

Having created a foundation on which a church could now be built, we made plans for organizing the believers in Mbenjere. Community is everything in Africa so we wanted to make our opening day really special and incorporate other believers in the area. Over two hundred were in attendance and so many showed up that we couldn't fit everyone in our mud church building. Instead we all met under a big tree in the center of the village. This was the same tree that initially drew our attention to Mbenjere several years ago when the witch doctor came through. How ironic that we had come full circle on the same patch of ground that the devil had used in oppressing these people under a bondage of fear and sorcery. Our desire to to put up a building thats 12x20 meters. This size should be able to accommodate the entire village even as we grow and reach out into the surrounding areas. With the Lord's blessing, we'd like to be inside a completed building later this year.
