# Jesus

Something we recognize about Jesus is that He was very observant. He paid attention to the people around Him and the world in general.

Jesus saw spiritual truths everything around Him from a mustard seed to birds to clothing. He told stories or parables to help other people notice these things as well.

Jesus paid attention to those outcasts slipping through the cracks of society. He found value in people that others felt had no value. He cared for the lepers, the blind, the lame, children, the sick and the sinful.

The lady who had a issue of blood for 12 miserable years found that she was not a bother but a priority to our Lord.

Jesus was aware of not only needs, but what motivated various individuals and He saw potential in everyone.

His closest friends and fellow laborers were not the poplar, but average people.

If we are to have a Fresh Start we too must be observant like the Saviour. We can change the world by noticing one person at a time!
